EXPLORE THE OCEAN STATE OF MIND

Introducing Explora Journeys

Explora Journeys, the luxury ocean travel brand of MSC Group, was created by the Aponte-Vago family, drawing on generations of seafaring expertise and deep European roots.

Their vision was simple yet transformative: to create a new category of ocean travel — one that combines the elegance of a world-class hotel with the freedom of the open sea. A way of travelling that feels expansive rather than excessive, intentional rather than prescriptive, and deeply personal in every moment.

At the heart of this concept is the ocean itself.

Not as a route between places, but as a place — a destination of calm, perspective, and possibility.

Journeys unfold at a different rhythm. Iconic destinations alongside hidden gems — this is travel guided by curiosity rather than crowds.

Time becomes the ultimate luxury, allowing you to feel the world rather than rush through it.

This is the essence of our *Ocean State of Mind*.

EXPLORE THE

Ocean State of Mind

A feeling that unfolds the moment you step aboard — an exhale, a soft reset, a sense of ease inspired by the sea.

It is the quiet luxury of time and space, where every horizon invites reflection and every detail is crafted to elevate the spirit.

The ocean becomes the destination. Its rhythm slows you down and its beauty reconnects you to what matters. Here, you rediscover curiosity, connection, and a deeper kind of wellbeing.

This is travel that transforms.

This is the *Ocean State of Mind*.

“*Everything* we are is based on the sea. The sea gives us *energy*, lets us *breathe*... it is at the core of who we are.”

ALEXA APONTE VAGO

Positive Actions for the Now and the Future

MSC FOUNDATION
m
sc

Explora Journeys is committed to taking meaningful, measurable actions that have a long-term positive impact on our guests, our employees and our planet.

We continue to work towards achieving net zero greenhouse gas emissions by 2050 for our marine operations, by investing in new technology and design, improving operational efficiency and renewable fuels.

All six ships will be RINA Dolphin-certified, ensuring reduced underwater noise, which in turn helps to lessen the impact on marine life. EXPLORA III, IV, V and VI will be LNG-powered.

Explora Journeys also has a project underway to examine the capability of a large fuel cell transforming LNG into hydrogen and significantly reducing emissions. EXPLORA V will be built to allow for a potential retrofit of the technology in the future whilst EXPLORA VI will be delivered with a fuel cell system on board.

Explora Journeys is dedicated to supporting environmental, humanitarian and sustainable development commitments worldwide through the MSC Foundation, a private non-profit foundation established by the Aponte family.

Inspired by the MSC Group's values and motivated by a deep sense of responsibility for the planet and its resources, the foundation's mission is to utilise MSC's global reach and unique knowledge of the ocean to take immediate action that contributes to protecting and nurturing the blue planet.

The foundation also supports sustainable ecosystem management, empowers vulnerable communities, promotes inclusive education, and aids disaster recovery efforts.
