ISLAND WORLDS A WORLD APART

The lands and islands of the Asia Pacific region have long called to the hearts of curious and courageous explorers.

This is a place of profound contrast and wonder — where volcanic shores, coralfringed atolls, and remote rainforests give rise to some of the planet's most biodiverse and untouched habitats. And then there are the people.

From Japan's fusion of ancient ritual and modern innovation, to Papua New Guinea's rich cultural mosaic and the legendary tales of castaways and mutineers, the human stories here are as captivating as the landscapes themselves — shaped by centuries of tradition, isolation, and discovery.
